John - I've been discussing the duration of violation issue with Randy Robinson (our modeler) and I think we may have a solution. It will generate an enormous output file and take some sorting though. I'll be discussing the details of this modeling option with Randy tomorrow. I'll let you know what we conclude.

Thanks.

I don't believe I've seen anything like that. What is the citation in the IL SIP that discusses duration?

Let me check with Eric. I talked to the attorney for the KCBX site with Molly (Nicole Cantello), and the Illinois SIP has a provision saying that if you violate at NAAQS, the violation is for a certain period of time. Do we have that in the MN SIP?

John

John – Are you in the office this Thursday (11/19)? I was hoping we could meet (w/Randy and Eric) to discuss the modeling duration of violation for the USG NOV.

Thanks.
